

DRAGON JACKET

REVOLUTIONARY

INDUSTRIAL TANK PANEL INSULATION

INSTALLATION OPTIONS

STEEL BANDING

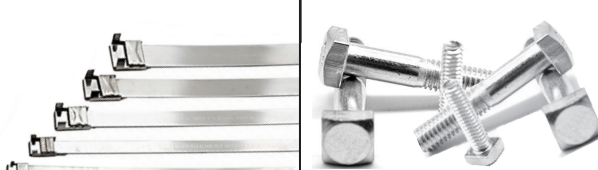

BELT LOOPS

Strategically placed on the panels to facilitate a consistent straight line banding point for final attachment.

RE-USABLE

TANK PANELS

STEEL BANDING

STEEL BOLTS

BOLT FASTENERS

Strategically placed on the panels to facilitate safer and faster installation.

100% RE-USABLE

FEATURES

- Durable
- Re-Usable
- Waterproof
- Chemical Resistant
- Safe & Easy Installation
- Significantly Reduces CUI

INTEGRATED DRIP EDGES

Provide interlocking channels for the proper placement of corresponding panels and a sheeting function to shed water from interlocking joints

MATERIAL

2lb. Density Closed Cell Foam Fully Encapsulated by 100% Solid Polyurea

R-VALUE

6.25/inch or 12.53/2 inches

K-FACTOR

0.174 Btu-in/hr-ft²-F
(Metric Equivalent is 0.025 W/m-K)

STANDARD PANEL DIMENSIONS

Approximately 4' Wide by 3' Tall at 2" Thickness (Dimensions are based on tank diameter and curvature)

STANDARD COLORS

High Pigment Black and Silver

**Custom sizes and colors will be quoted upon request*
