

DRAGON JACKET INSULATION – ENGINEERED TO WITHSTAND EXTREME WEATHER AND DEMANDING OPERATIONAL CONDITIONS

WHEN IS **DRAGON JACKET** INSULATION THE BEST CHOICE FOR YOUR PROJECT?

1

WHEN YOU NEED INSULATION TO RELIABLY DELIVER CONSISTENT R-VALUE AND THERMAL STABILITY IN ANY OPERATIONAL ENVIRONMENT

Bring on the rain, wind, hail, freezing temperatures and harsh cleaning. Dragon Jacket's static R-value consistently maintains thermal stability for processes operating above and below ambient temperatures.

2

WHEN YOU NEED WORRY-FREE, FAST AND EASY-TO-INSTALL INSULATION THAT IS DURABLE, REMOVABLE, AND REUSABLE

With Dragon Jacket, there is no additional cladding required. Simply install over piping, secure with metal bands or zip ties, and call it a day. Remove, inspect and reinstall in minutes using standard tools and personnel.

3

WHEN YOU'RE FINALLY READY TO SAY GOODBYE TO CUI

In today's production environment, your insulation should deliver thermal protection without causing corrosion. Dragon Jacket products are waterproof, oil-proof and chemical resistant, making them the ideal choice for applications where CUI is a concern.

4

WHEN YOU NEED CUSTOMIZED INSULATION FOR MOVING PARTS AND A TRUE WATERPROOF SOLUTION TO SUPPORT HEAT TRACE COMPONENTRY

We engineer our products to your exact specifications using CAD software to provide customized solutions for awkward shapes and moving parts. Plus, because our insulation is 100% waterproof, it will never interfere with the effectiveness of heat tracing.

5

WHEN YOU'D RATHER SPEND CRITICAL FUNDING ON LITERALLY ANYTHING OTHER THAN INSULATION...AGAIN

Dragon Jacket insulation is designed for long-term functional durability. This means it's built to last 20-years or more without denigration of performance or material breakdown.

5-Year Limited Product Warranty. FDA Approved for Incidental Food Contact. Made in the USA.
